# Introduction

PepeArab blends the beloved meme culture with the rich heritage of the Arab world! Whether you're a fan of crypto or the famous Pepe meme, we're here to bring a fresh, fun, and engaging experience to the Crypto world.

The Pepe meme appeared for the first time in the early 2000s, ever since that, it has been taking over the internet and is now one of the most popular memes on the internet.

PepeArab is set to launch the first-ever exchange focused mainly on the ever-growing memecoin market. All \$PEAB holders will get a cut of the profits in the form of a token buyback and burn event, which makes the token deflationary and reduces the supply over time.

# About PepeArab

All \$PEAB holders indirectly get a share of profits made with our meme exchange, PepeArab also introduces a NFT collection with unique and rewarding features “Arab NFTs”, only available to presale contributors, our Arab NFTs can be bought, traded and sold after our Token launch on PepeArab.com directly and more popular marketplaces such as Opensea.

PepeArab.com aims to build a complete and growing Ecosystem in which all popular memecoins are present but also looking to introduce new and innovative features. With the help of Artificial Intelligence (AI), PepeArab.com will offer the best possible user experience.

In the following, you will learn why PepeArab is currently one of the fastest growing Crypto memes and why this trend is likely to accelerate.

# Staking Pools

PepeArab supports different staking pools which will help make the \$PEAB token more liquid and more accessible across all chains and different trading pairs. All Staking pool contributors get attractive rewards for their commitment and support to the Ecosystem. Besides earning a fixed APR, Staking pool contributors can also expect occasional airdrops and rewards from competitions.

Our Arab NFTs are also compatible with exclusive staking pools only accessible to Arab NFT holders which greatly increase their utility.

**NFT Legendary**

APR up to 488.1%

**NFT Rare**

APR up to: 328.5%

**NFT Common**

APR up to: 193.2%

# Arab NFT's

# Roadmap

# Audit

The PepeArab token contract has been audited by Certik. The Audit report can be found publicly on GitHub and on the following link:

[https://github.com/Assure-DeFi/Audits/blob/main/PepeArab\\_ADV\\_01\\_24\\_24.pdf](https://github.com/Assure-DeFi/Audits/blob/main/PepeArab_ADV_01_24_24.pdf)

The purpose of the audit was to achieve the following

- Ensure that the smart contract functions as intended
- Identify potential security issues with the smart contract

The Token Smart Contract has also been published and verified on Etherscan and can be seen here:
